

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.

<b>SJSU CE 008</b>	American River College	<b>ENGR 310 Engineering Survey Measurements</b>
<b>SJSU CE 008</b>	Butte College	<b>ENGR 3 Plane Surveying I</b>
<b>SJSU CE 008</b>	Cabrillo College	<b>ENGR 1A Surveying</b>
<b>SJSU CE 008</b>	CSU, Chico	<b>CIVL 130 Surveying</b>
<b>SJSU CE 008</b>	CSU, Long Beach	<b>CE 130 Surveying &amp; Mapping</b>
<b>SJSU CE 008</b>	CSU, Sacramento	<b>CE 9 Plane &amp; Topographic Survey</b>
<b>SJSU CE 008</b>	Cuesta College	<b>ENGR 201 Plane Surveying</b>
<b>SJSU CE 008</b>	Cuyamaca College	<b>ENGR 218 Plane Surveying OR SURV 218 Plane Surveying</b>
<b>SJSU CE 008</b>	Diablo Valley College	<b>CONST 116 Plane Surveying OR ENGIN 140 Plane Surveying</b>
<b>SJSU CE 008</b>	East Los Angeles College	<b>ENGSUP 121 Plane Surveying I</b>
<b>SJSU CE 008</b>	Evergreen Valley College	<b>ENGR 060 Surveying OR ENGR 061 Plane Surveying</b>
<b>SJSU CE 008</b>	Fresno City College	<b>ENGR 1A Elementary Plane Surveying 1 AND ENGR 1B Elementary Plane Surveying 2</b>
<b>SJSU CE 008</b>	Hartnell College	<b>EGN 11 Surveying</b>
<b>SJSU CE 008</b>	Los Angeles Mission College	<b>ENGSUP 121 Plane Surveying I AND ENGSUP 221 Plane Surveying II</b>

Some majors require grade minimums in some of the courses listed below. Please go to the "School to School Transfer" or "Transfer Planning" links to view the grade minimums required for each major.

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.

Some majors require grade minimums in some of the courses listed below. Please go to the "School to School Transfer" or "Transfer Planning" links to view the grade minimums required for each major.

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.

Some majors require grade minimums in some of the courses listed below. Please go to the "School to School Transfer" or "Transfer Planning" links to view the grade minimums required for each major.

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.

Some majors require grade minimums in some of the courses listed below. Please go to the "School to School Transfer" or "Transfer Planning" links to view the grade minimums required for each major.

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.

Some majors require grade minimums in some of the courses listed below. Please go to the "School to School Transfer" or "Transfer Planning" links to view the grade minimums required for each major.

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.

<b>SJSU MATH 030</b>	Shasta College	<b>Math 3A Calculus 3A</b>

Some majors require grade minimums in some of the courses listed below. Please go to the "School to School Transfer" or "Transfer Planning" links to view the grade minimums required for each major.

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.

Some majors require grade minimums in some of the courses listed below. Please go to the "School to School Transfer" or "Transfer Planning" links to view the grade minimums required for each major.

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.

<b>SJSU MATH 039</b>	Palomar College	<b>MATH 200 Introduction to Linear Algebra</b>

Some majors require grade minimums in some of the courses listed below. Please go to the "School to School Transfer" or "Transfer Planning" links to view the grade minimums required for each major.

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.

Some majors require grade minimums in some of the courses listed below. Please go to the "School to School Transfer" or "Transfer Planning" links to view the grade minimums required for each major.

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.

Some majors require grade minimums in some of the courses listed below. Please go to the "School to School Transfer" or "Transfer Planning" links to view the grade minimums required for each major.

The courses listed below are the Lower Division required courses for Engineering majors at SJSU. Successful completion of the majority of the lower division requirements will normally lead to improved performance and reduced time to graduation.

Note: Students who major in Biomedical Engr, Chem Engr, or Materials Engr, - Must complete both CHEM 1A+1B, it is recommended that these courses be taken at the same transfer school. All other Engr majors allow completion of CHEM 1A only.
